YEAR 6 IMPLEMENTATION

INDIANA COMMISSION *for*
HIGHER EDUCATION

HEA 1553-2021 *UPDATES*

1) Must meet *one* of the three **Academic Requirements**:

- Rank in the top 20% of high school graduating class; or
- Have a top 20% ACT or SAT score; or
- **Have a cumulative grade point average (GPA) of at least a 3.5 on a 4.0 scale**

2) The commission shall give priority to **students pursuing teacher shortage areas and students showing significant financial need** when selecting applicants.

3) The commission shall also give priority to an individual **who is a member of a household with an annual income of not more than the amount required for the individual to qualify for the free or reduced-price lunch program.**

YEAR 6 WRITING PROMPT

Learning beyond high school is more important than ever as higher education and training lead to increased wages, more secure employment opportunities, and improved health and civic outcomes. For example, Hoosiers with postsecondary degrees or credentials are likely to earn more income over their lifetimes than those with only a high school diploma. Despite this, fewer Indiana students are pursuing higher education and training, where the college-going rate is at its lowest point in more than 10 years.

1. Drawing from your own experience, what do you perceive to be the reason/s that fewer students are choosing to pursue education and training options beyond high school?
2. What role should educators have in helping students understand the value of education and training beyond high school?
